ASQUITH WILL TAKE WAR PORTFOLIO

PREMIER SPRINGS SURPRISE ON PARLIAMENT WHEN HE ASSUMES TASK OF WAR OFFICE.

Will Resign From the House at This Critical Stage and Appeal for Re-election.—Government Nominally Without Prime Minister.

London.—Premier Asquith sprung a genuine surprise on the house on Monday, when, after all the many solutions of the government crisis which had been proposed and discussed, he announced a decision which none of the prophets has expected or even suggested.

The prime minister himself will assume the burden of the war office in addition to his other and almost crushing duties. He will resign from the house at this critical stage, when the second reading of the home rule bill is about to be taken up, and will appeal for re-election to his constituents in East Fife, Scotland, within a few days.

Field Marshal Sir John French, chief of the imperial staff, and Sir John Ewart, adjutant general, declined to withdraw their resignations. In spite of the army order issued on Friday, which Viscount Haldane cleverly framed as a platform on which the generals might stand with consistency and honor.

It thus became impossible for Colonel J. E. B. Seely, who was confederate with them of assurances to General Gough that the army would not be used to suppress the Ulster opposition to home rule, to retain the secretaryship of war. His resignation, therefore, was accepted after he had been for some days under fire from the newspapers of his own party, who insisted that he must go.

Viscount Morley of Blackburn, lord president of the council, who was partner with Colonel Seely in drafting the offending paragraphs of the document, stands in the same position and his withdrawal from office is expected.

The present situation is remarkable in that the government will be nominally without a prime minister and nominally without a leader. In the house until the bye-election is held in East Fife. The writ for the election must give eight days' notice.

The only practical loss to the party in the meantime will be the withdrawal of Mr. Asquith's voice from the debates. He will preside over cabinet meetings and direct maneuvers in the house of commons from an unofficial seat while Reginald McKenna, the home secretary, and Winston Churchill, first lord of the admiralty, will understudy him as house leader.
